

Description:

- 500 MHz, 300 MHz, and 100 MHz Bandwidths
- Sample Rates up to 5 GS/s
- 2 or 4 Channels
- Full VGA Color LCD on all Models
- Built-in Floppy Disk Drive For Easy Storage and Documentation
- 21 Automatic Measurements
- Centronics Port Standard on all Models for Quick, Convenient Hardcopies
- 9-bit Vertical Resolution
- Multi-Language User Interface
- QuickMenu User Interface Mode for Quick, Easy Operation
- Optional Modules for RS-232, GPIB, LAN or VGA Communication Ports
- Advanced Triggers, such as, Glitch, Width, and Logic Standard on 4 Channel Models
- Telecommunications Mask Testing (TMT)
- Fast Fourier Transform (FFT) for Frequency and Harmonic Analysis Standard on 4

Channel Models

- Extended Video Application Module
- Support for Active Probes, Differential Probes, and Current Probes that Provide Automatic Scaling and Units
